

### Letterhead Certificate for Ovine Casings Imported from New Zealand

Date Issued: \_\_\_\_\_ Certificate Number: \_\_\_\_\_

1. The ovine casings in this consignment were derived from animals originating and slaughtered in New Zealand at establishment \_\_\_\_\_, on \_\_\_\_\_. The casings were processed and/or stored at establishment\_\_\_\_\_.
2. The animals from which the casings were derived were subject to ante-mortem and port-mortem inspection at the time of slaughter and were free from contagious and infectious disease which could be transmitted in casings.
3. New Zealand is officially free from foot and mouth disease, rinderpest, and peste des petits ruminants.
4. The consignment does not contain casings derived from sheep or goats over 12 months of age which originate from countries or zones not considered free from scrapie.
5. The casings were packed:
  - so that each packing container contains casings derived from a single species of animal only;
  - so that the casings were not exposed to contamination before export;
  - in clean, new or disinfected packing containers; and
  - so that the official establishment number of the establishment where the casings were packed was readily visible on the outer wrapping or package.
